

# OBTAINING PERSISTENT LINKS TO VIDEO TITLES

## FILMS ON DEMAND

1. Find the film that you are interested in and click “Link”:

The screenshot shows the Infobase Films on Demand interface. At the top, there is a search bar with the text "Search 100,450 titles and 289,782 segment" and a search icon. To the right of the search bar is a "Your Profile" button. Below the search bar, the breadcrumb trail reads "Home > Search Results > Canada: A Diverse Culture". The main title of the video is "Canada: A Diverse Culture Full Video (25:29)". The video player shows a scenic view of a river winding through a forest with autumn foliage. Below the video player is a control bar with play, volume, and progress indicators. At the bottom of the interface, there is a row of sharing and utility buttons: "Link", "Share", "Add to", "Cite", "Segment", and "Resources". The "Link" button is circled in red, and a black arrow points to it from below. To the right of the video player, there is a "Segments" sidebar with a list of program segments and their durations.

FULL PROGRAM

2. Copy the "Record URL," but also add an 's' to the 'http' at the start of it. In the example above:  
**<https://libaccess.senecacollege.ca/login?url=https://digital.films.com/PortalPlaylists.aspx?wid=102598&xtid=35166>** is a persistent link to the film above.
3. Test links before posting via email, course webpages, etc.
